

01.09.18
WEM 2018 ROUND 8
SUSUKA INTERNATIONAL RACING
COURSE

Qualification:

First, GT3 qualifying, LMP1 qualifying afterwards..

Apps:

OSRW Race Admin App has to be used, RZ-Pittime App is used. Please turn off all other Apps like PLP or variations of OSRW.

Duration:

Race duration will be 8h

Pit Stop:

Speedlimit for the pitlane is 80 Km/h, beginning at the pit entry line.

The speedlimit applies to the entire pit lane..

Violating the speedlimit will result in an automatic penalty by the OSRW Race Admin App, depending on the violation.

The minimum pit stop duration, from pit entry line to pit exit line, is 3 minutes.

When exiting the pit lane, the white line separating the track from the pit lane, must not be crossed. You'll get a penalty by the Live ReKo if you do.

In the last hour of the Race, the Splash 'n' Dash rule is applied (at 59:59).

Behavior:

All LMP 1 cars have to turn on the Headlights.

(Therefor, please activate the Option „High Quality Mirror Reflections“
in the Settings → Video → Reflections)

All GT3 cars have to keep their line. Lapping LMP 1 cars have to adjust their line, respecting the GT3 cars.

Incidents and question regarding the event are to be discussed with the Live ReKo. In Live ReKo you'll wait in the Channel "Warteraum" until someone of the Live ReKo takes you to the conversation.

Regarding Cutting; as always. 2 tires on track, report violations to the Live ReKo and the Live ReKo will be watching you.

In case, the safety car has to roll out, it will try to catch the leader of the GT3 class. Since the the Safety Car can't wait 2 minutes for the leader to arrive, we may allow you to overtake the safety car, **if needed**. Until the GT3 leader is behind the safety car. You are only allowed to overtake the Safety Car if your Car has explicitly been called out to do so. If you overtake the Safety Car without request, you will get punished. Before the Race goes green again, the LMP 1 will be called behind the Safety Car. In this case aswell, you are only allowed to overtake, if you have been requested to do so. While the LMP 1 are ordered behind the safety Car, we ask every other car to avoid driving slalom, to warm your tires. Whoever causes an Accident or gets off the Track, has to row in at the Back.

Start:

The race will be started by running start.

Before the start, only the Pacecar will be on the track.

The cars will drive to the starting grid by Recon lap, to wich the drivers will be called on the track one by one, out of the pit lane.

Uneven grid places (1st, 3rd, 5th...etc.) go on the **left** side, even grid places (2nd, 4th, 6th....etc.) go on the **right** side.

During formation lap, overtaking is forbidden. After **turn 14** to start, the grid will drive in double file.

The start command will be given by the OSRW app.

After the start command "Go! Go! Go!" the race has started (green flag).

If there are problems with the Pacecar (accident, etc.) the first LMP 1 car will lead the grid to the start. The speed should match the Pacecar (80 Km/h +/- 10 Km/h).
